

Unprecedented bullet stopping power. Our armored garments set new standards in ballistic efficiency properties in transfer and dissipation of energy when they stop a bullet.

Our bulletproof panels have been Ballistically Tested in the United States of America by certified Laboratories by the National Institute of Justice as well in the Russian Federation under the GOST-R Standard. (The World's toughest and most difficult standard to pass).

This armored garment provides ballistic protection according to GOST- 34286-2017 and NIJ III-A (NIJ 0101.06). against calibers of small arms:

#### **AMERICAN**

.380 ACP, 9mm, 357 Magnum , 357 SIG, 40 S&W, 45 Cal hollow point

#### **RUSSIAN**

Makarov "PM"; 9mm, Nagan 7.62; Lead, "PSM" 5.45; Steel, Tokarev "TT" 7.62; Steel

# REMOVABLE BALLISTIC PANELS

<b>Development Country</b>	Russian Federation (By Ex-Engineers of the Moscow Institute of Physics and Technology)
<b>Manufacture</b>	Mexico
<b>Manufacturer</b>	Tanus Armor Group S. de R.L. de C.V.
<b>Ballistic Panel construction</b>	Multi-layer with ultra-thin ballistic material for a better flexibility and comfort. Optimized for a better transmission, reflection and absorption of bullet Kinetic energy produced by the hit.
<b>Ballistic material lifetime</b>	5/7 YEARS ACCORDING GARMENT CARE
<b>Soft Ballistic Panels</b>	<b>2 (Removable)</b>
<b>Flexibility level</b>	High
<b>Garment construction</b>	- Ergonomic - Assembled in Segments for a perfect body mobility
<b>Antibacterial System</b>	Made with antimicrobial materials

- HIGHLY FLEXIBLE HI-TECH BALLISTIC MATERIAL
- UNBEATABLE COMFORT
- PROVIDE SHOCK ABSORPTION FROM ANY KIND OF HITTING OBJECTS

## BALLISTIC PANEL HYBRID STRUCTURE

**CONSTRUCTED WITH ULTRA THIN LAYERS OF BALLISTIC MATERIAL**

- CERTIFIED in the Russian Federation under the GOST-R Standard. (The World's toughest and most difficult standard to pass).
- Built according to the USA NIJ 0101.06 Level III-A standard.
- Ballistically Tested in National Institute of Justice (NIJ) certified laboratories.
- Ballistically tested on V50 with 30% lower trauma measures than required in NIJ 0101.06 standard Level III-A.
- Anti-trauma and shock absorption capacity above NIJ 0101.06 Level III-A standard.
- Removable panels made of ultra-light ballistic material layers, for comfort and flexibility.
- Multi - hit capacity
- Contact shot resistant
